about us

MTT Bathware, a division of **Mahadev Turntech Pvt. Ltd.**, represents a new benchmark in premium brass bath fittings. Rooted in **Jamnagar, Gujarat** — the heart of India's brass manufacturing industry — we combine decades of metallurgical expertise with modern automation to produce bathware that delivers **Precision in Every Drop**.

With a fully integrated manufacturing setup, we maintain **complete control from concept to completion**.

Our state-of-the-art facility features:

- **Advanced CNC Turning Centers**
- **Semi & Fully Automated Casting Lines**
- **In-House Surface Finishing & Electroplating Plant**
- **Dedicated R&D & Industrial Design Studio**
- **Complete Assembly & Quality Testing Unit**

This ensures **100% in-house production**, giving us the ability to deliver:

- ✓ Consistent and Reliable Quality
- ✓ Precision Fit & Smooth Operation
- ✓ Superior Brass Composition
- ✓ Long-Lasting Plating & Corrosion Resistance

Our products are engineered for **Affordable Luxury**, blending modern design with robust functionality. Built to perform in varied water conditions, they retain elegance, shine, and durability even with heavy daily usage.

With a strong presence across **Indian retail, OEM networks, and global export markets**, MTT Bathware is trusted by architects, builders, dealers, and homeowners alike. We don't just make bath fittings — **we craft experiences** that elevate the way you begin and end your day.

The Art of Metal, Perfected.

Vision

To become a globally admired bathware brand known for precision engineering, elegant design, and lasting performance — transforming everyday routines into experiences of comfort and refined living.

Mission

- To design and manufacture bath fittings that balance aesthetic appeal, durability, and functionality.
- To uphold 100% in-house quality control through continuous investment in technology and craftsmanship.
- To provide value-driven solutions aligned with evolving interior and architectural trends.
- To build lasting relationships with customers and partners based on reliability, transparency, and trust.

Core Values

Precision

Engineering accuracy is at the core of every product we manufacture.

Quality First

We commit to materials and finishes that ensure long-lasting performance.

Design with Purpose

Our products are crafted to be functional, ergonomic, and visually refined.

Integrity & Transparency

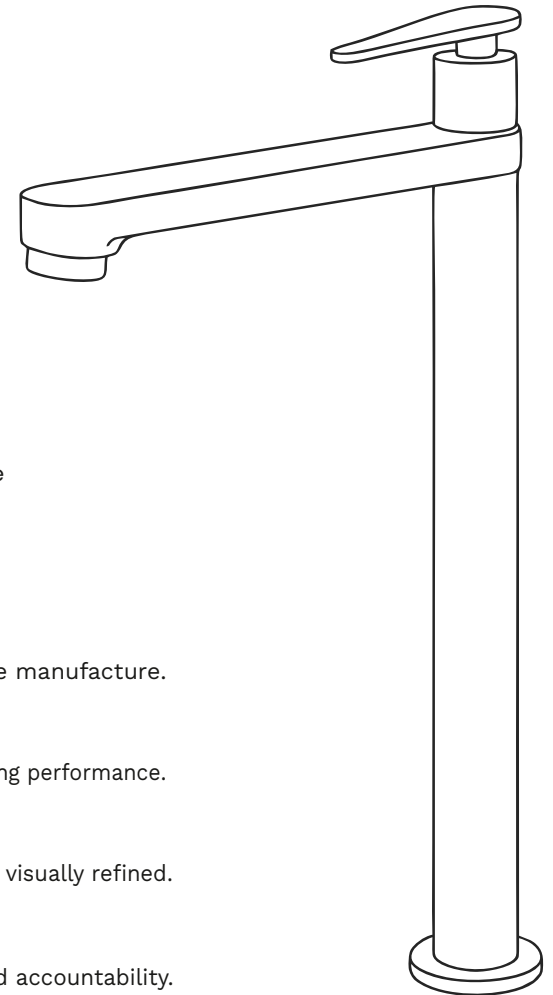

Every interaction and decision is grounded in honesty and accountability.

Innovation & Improvement

We continuously evolve through research, technology adoption, and market insight.

Customer Experience

We measure success by the comfort, confidence, and satisfaction our products deliver.

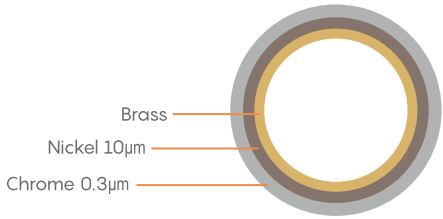

Manufacturing Process

CNC machines operate based on pre-programmed designs, enabling the production of identical parts hundreds or even thousands of times. Every item produced maintains the same high level of accuracy and consistency. With the help of advanced design software, engineers can virtually test and refine their concepts before manufacturing, eliminating the need for physical prototypes. While a skilled craftsman can manually recreate components, minor differences will always exist between pieces. In contrast, **CNC technology** ensures that every component is produced as an exact replica of the original design.

Faucet Tech

No.	Component	Material
01	Lever	Hpb59-3
02	Garter Spring	QSn6.5-10
03	O Ring Gasket	EPDM
04	Lubricating O-Washer	POM
05	Brass Housing	Hpb59-3
06	O Ring Gasket	EPDM
07	Moving Disc	AL203>96%
08	Fixed Disc	AL203>96%
09	Sealing Gasket	Silicone
10	Base	Hpb59-3
11	Sealing Gasket	Silicone
